

NOTE ON PERFORMANCE TESTING

Performance Profile Sheet(s) are included in a format that can be easily photocopied for each trainee. This examination is designed to measure competency in the tasks taught in each module.

Please note the number of tasks to be tested while teaching each module. Each trainee should be tested on all the tasks listed on the Performance Profile Sheet(s). Before performance testing, the instructor should brief the trainees on:

- Test objectives and criteria
- Safety precautions
- Procedures for each task to be tested

The instructor administering the performance testing should also do the following:

- Ensure that all of the needed equipment is available and operating properly.
- Set up the testing stations.
- Organize and administer the test in a way that allows for optimal performance.
- Complete the Performance Profile Sheet(s) for each trainee by assigning a pass/fail score for each listed task. Also, include the testing date, and start and end times for each task in the rating boxes.
- Monitor adherence to all safety regulations and precautions.
- Provide adequate supervision to prevent injuries.
- Take immediate and effective action to remedy any emergency.

Performance Testing

If Performance Testing is done as part of NCCER's Training Program, the following conditions must be met:

1. The Craft Instructor must hold valid NCCER instructor certification.
2. The training must be delivered through an Accredited Training Sponsor recognized by NCCER.
3. The specific performance testing must be completed successfully.
4. The results of the testing must be recorded on Training Report Form 200. This form must be provided to the local Accredited Training Sponsor to be forwarded to NCCER's Registry Department.

Certified Plus Credential

Provided the sponsor is working through an NCCER-Accredited Assessment Center, candidates who successfully pass performance testing may be eligible for a Certified Plus Credential. A number of NCCER's Performance Profiles cross over to NCCER's Assessment Performance Verifications and may be completed simultaneously. Go to www.nccer.org and select the Assessments tab to locate the Performance Verifications associated with this craft.

Note that two other important conditions are required for the Certified Plus Credential:

1. Candidates must first pass the associated written assessment.
2. An NCCER-Accredited Assessment Administrator must sign off on the Performance Verification before it is submitted to NCCER.

Craft: Weatherization Crew Chief Level Two

Module Number: 33103-10

Module Title: Concrete and Steel Construction Methods

TRAINEE NAME: _____

TRAINEE SOCIAL SECURITY NUMBER: _____

CLASS: _____

TRAINING PROGRAM SPONSOR: _____

INSTRUCTOR: _____

Rating Levels: (1) Passed: performed task (2) Failed: did not perform task
Also, list the date the testing for each task was completed.

Recognition: When testing for the NCCER Standardized Craft Training Program, be sure to record Performance testing results on Training Report Form 200, and submit the results to the Training Program Sponsor.

Objective	TASK	RATING
6	1. Select the appropriate drill bits and bore openings in concrete and steel.	
7	2. Select and install appropriate fasteners and anchors in the following:	
	• Concrete	
	• Steel	

Craft: Weatherization Crew Chief Level Two

Module Number: 27201-07

Module Title: Commercial Drawings

TRAINEE NAME: _____

TRAINEE SOCIAL SECURITY NUMBER: _____

CLASS: _____

TRAINING PROGRAM SPONSOR: _____

INSTRUCTOR: _____

Rating Levels: (1) Passed: performed task (2) Failed: did not perform task
Also, list the date the testing for each task was completed.

Recognition: When testing for the NCCER Standardized Craft Training Program, be sure to record Performance testing results on Training Report Form 200, and submit the results to the Training Program Sponsor.

Objective	TASK	RATING
2, 3	1. Locate 10 items contained in a set of commercial drawings. (The instructor will select the 10 items.)	
4	2. Using a door and window schedule, identify the hardware, ratings, and finishing for each door and window.	
6	3. Calculate the floor area in a floor plan.	

**Module 03410-09 has no Performance Profile Sheet;
no performance testing is required for this module.**

Craft: Weatherization Crew Chief Level Two

Module Title: Introduction to Cooling

TRAINEE NAME: _____

TRAINEE SOCIAL SECURITY NUMBER: _____

CLASS: _____

TRAINING PROGRAM SPONSOR: _____

INSTRUCTOR: _____

Rating Levels: (1) Passed: performed task (2) Failed: did not perform task
Also, list the date the testing for each task was completed.

Recognition: When testing for the NCCER Standardized Craft Training Program, be sure to record Performance testing results on Training Report Form 200, and submit the results to the Training Program Sponsor.

Objective	TASK	RATING
3	1. Measure temperatures in an operating air conditioning system.	
4	2. Use cylinder color codes to identify refrigerants.	
5	3. Identify compressors, condensers, evaporators, metering devices, controls, and accessories.	
7	4. Use service valves to gain access to an air conditioning system in order to measure pressures using a gauge manifold set.	

Craft: Weatherization Crew Chief Level Two

Module Title: Introduction to Heating

TRAINEE NAME: _____

TRAINEE SOCIAL SECURITY NUMBER: _____

CLASS: _____

TRAINING PROGRAM SPONSOR: _____

INSTRUCTOR: _____

Rating Levels: (1) Passed: performed task (2) Failed: did not perform task
Also, list the date the testing for each task was completed.

Recognition: When testing for the NCCER Standardized Craft Training Program, be sure to record Performance testing results on Training Report Form 200, and submit the results to the Training Program Sponsor.

Objective	TASK	RATING
4	1. Identify the components of an induced draft and condensing gas furnace and state their purpose.	
6	2. With supervision, turn on and check a gas furnace.	
7	3. Identify symptoms of combustion problems in a gas furnace and adjust the manifold pressure.	

continued

Craft: Weatherization Crew Chief Level Two

Module Number: 03108-07

Module Title: Introduction to Heating

Objective	TASK	RATING
10	4. With supervision, perform preventive maintenance procedures on a gas furnace, including filter replacement, cleaning of components, and temperature measurements.	
8	5. Identify the components of an oil furnace and state their purpose.	
8	6. With supervision, turn on and check an oil furnace.	
10	7. With supervision, perform preventive maintenance procedures on an oil furnace, including filter replacement, cleaning of components, and temperature measurements.

Module Title: Chimneys, Vents, and Flues

TRAINEE NAME: _____

TRAINEE SOCIAL SECURITY NUMBER: _____

CLASS: _____

TRAINING PROGRAM SPONSOR: _____

INSTRUCTOR: _____

Rating Levels: (1) Passed: performed task (2) Failed: did not perform task
Also, list the date the testing for each task was completed.

Recognition: When testing for the NCCER Standardized Craft Training Program, be sure to record Performance testing results on Training Report Form 200, and submit the results to the Training Program Sponsor.

Objective	TASK	RATING
5	1. Measure supply and return temperature and determine the temperature rise of a furnace.	
9	2. Adjust a thermostat heat anticipator.	
6	3. Calculate the correct size and type of PVC pipe using manufacturer's instructions or <i>National Fuel Gas Code</i> or American Gas Association specifications.	
8	4. Calculate the correct size and type of furnace vent connector and metal vent using manufacturer's instructions or <i>National Fuel Gas Code</i> or American Gas Association specifications.

CLASS: _____

TRAINING PROGRAM SPONSOR: _____

INSTRUCTOR: _____

Rating Levels: (1) Passed: performed task (2) Failed: did not perform task
Also, list the date the testing for each task was completed.

Recognition: When testing for the NCCER Standardized Craft Training Program, be sure to record Performance testing results on Training Report Form 200, and submit the results to the Training Program Sponsor.

Objective	TASK	RATING
9	1. Use a tachometer to measure blower motor rpm.	
3	2. Read and interpret equivalent length charts and required air volume/duct size charts.	
4, 5	3. Assemble duct and fittings.	
4	4. Assemble flexible duct.	

continued

Craft: Weatherization Crew Chief Level Two**Module Number: 03109-07****Module Title: Air Distribution Systems**

Objective	TASK	RATING
8	5. Install insulation and vapor barriers on metal ducts.	
9, 10	6. Use a manometer to measure static pressure in a duct system.	
9, 10	7. Use a velometer to measure the velocity of airflow at the output of air system supply diffusers and registers.
