Do you have journey-level or technician-level experience in your craft? Professionals like you are needed to contribute to the industry’s premier training program.

NCCER offers over 70 nationally-recognized, standardized craft training programs developed for the construction and maintenance industries. Subject Matter Experts (SMEs) are a vital part of the development process and ensure that NCCER remains current with industry standards.

These experts:
- Share their knowledge and experience with the industry
- Lead others in their craft
- Inspire others to join the rewarding world of construction and maintenance

If you want to become a Subject Matter Expert and contribute to building a safe and productive workforce, email this form to Product Development at curriculum@nccer.org or visit www.nccer.org/subject-matter-expert.
