

POURING A STRONG FOUNDATION . . . BEGINS WITH A CONCRETE EDUCATION.

NCCER's revised Concrete Construction offers the standardized training and credentials you've come to trust.

UPDATED CONCRETE CONSTRUCTION

Designed to give trainees the full scope of tasks on a concrete job site, this curriculum offers the latest on:

**Developments
in finishing**

**Concrete
repair**

**Properties
of concrete**

**Troubleshooting
& quality control**

In addition, the expanded program offers four interim credentials:

- Concrete Placement
- Concrete Formwork
- Concrete Reinforcement
- Concrete Highway Systems
