BUILDING SKILLS
FROM THE GROUND UP.

NCCER’s recently revised Core: Introduction to Basic Construction Skills covers topics such as safety, introductions to hand and power tools, employability and more.
Created with industry and academia subject matter experts, this revised curriculum includes:

- An elective, introductory module about career paths.
- Practice quizzes, interactive activities and 40 new videos in NCCERconnect.
- Dynamic presentations for interactive class experiences.
- More rigorous performance tests.

Extensive updates have been made to four modules:

- Construction Drawings
- Power Tools
- Construction Math
- Hand Tools
