

NOTE ON PERFORMANCE TESTING

Performance Profile Sheet(s) are included in a format that can be easily photocopied for each trainee. Performance tests are designed to measure competency in the tasks taught in each module.

Please note the number of tasks to be tested while teaching each module. Each trainee should be tested on all the tasks listed on the Performance Profile Sheet(s). Before performance testing, the instructor should brief the trainees on:

- Test objectives and criteria
- Safety precautions
- Procedures for each task to be tested

The instructor administering the performance testing should also do the following:

- Ensure that all of the needed equipment is available and operating properly.
- Set up the testing stations.
- Organize and administer the test in a way that allows for optimal performance.
- Complete the Performance Profile Sheet(s) for each trainee by assigning a pass/fail score for each listed task. Also, include the testing date for each task in the rating box.
- Monitor adherence to all safety regulations and precautions.
- Provide adequate supervision to prevent injuries.
- Take immediate and effective action to remedy any emergency.

Performance Testing

If Performance Testing is done as part of the National Center for Construction Education and Research Standardized Craft Training Program, the following conditions must be met:

1. The Craft Instructor must hold valid NCCER instructor certification for the craft being tested.
2. The training must be delivered through a Accredited Training Sponsor recognized by NCCER.
3. For every module, the specific performance testing must be completed to the satisfaction of the instructor.
4. The results of the testing must be recorded on the Training Report Form 200. This form must be provided to the local Accredited Training Sponsor to be forwarded to the NCCER National Registry.

Craft: Drywall

Module Number: 45201-09

Module Title: Commercial Drawings

Contren® Learning Series

TRAINEE NAME: _____

TRAINEE SOCIAL SECURITY NUMBER: _____

CLASS: _____

TRAINING PROGRAM SPONSOR: _____

INSTRUCTOR: _____

Rating Levels: (1) Passed: performed task (2) Failed: did not perform task

Also, list the date the testing for each task was completed.

Recognition: When testing for the NCCER Standardized Craft Training Program, be sure to record Performance testing results on Craft Training Report Form 200, and submit the results to Training Program Sponsor.

Objective	TASK	RATING
2	1. Locate ten items contained in a set of commercial drawings (the instructor will select the items).	
4	2. Using a door and window schedule, identify the hardware, ratings, and finishing for each door and window.	

Craft: Drywall
Module Number: 45202-09
Module Title: Steel Framing

Contren® Learning Series

TRAINEE NAME: _____

TRAINEE SOCIAL SECURITY NUMBER: _____

CLASS: _____

TRAINING PROGRAM SPONSOR: _____

INSTRUCTOR: _____

Rating Levels: (1) Passed: performed task (2) Failed: did not perform task
 Also, list the date the testing for each task was completed.

Recognition: When testing for the NCCER Standardized Craft Training Program, be sure to record Performance testing results on Craft Training Report Form 200, and submit the results to the Training Program Sponsor.

Objective	TASK	RATING
8	1. Build a section of curtain wall from shop drawings to include a window opening with headers, jambs, and sill.	
8	2. Build a section of wall to include an attachment to miscellaneous iron; box out at vertical angles; install clips.	

continued

Craft: Drywall

Module Number: 45202-09

Module Title: Steel Framing

Contren® Learning Series

Objective	TASK	RATING
3	3. Build headers (back-to-back, box, and L-header).	
4	4. Lay out and install a steel stud structural wall with openings to include bracing and blocking.	
5	5. Lay out and install a steel stud nonstructural wall with openings to include bracing and blocking.	

Craft: Drywall

Module Number: 45203-09

Module Title: Acoustical Ceilings

Contren® Learning Series

TRAINEE NAME: _____

TRAINEE SOCIAL SECURITY NUMBER: _____

CLASS: _____

TRAINING PROGRAM SPONSOR: _____

INSTRUCTOR: _____

Rating Levels: (1) Passed: performed task (2) Failed: did not perform task
Also, list the date the testing for each task was completed.

Recognition: When testing for the NCCER Standardized Craft Training Program, be sure to record Performance testing results on Craft Training Report Form 200, and submit the results to the Training Program Sponsor.

Objective	TASK	RATING
1	1. Use a laser to establish a level line at ceiling level such as is required when installing the wall angle for a suspended ceiling.	
7	2. Lay out and install selected suspended ceiling systems according to a specific plan.	
5, 6	3. Draw a ceiling plan/sketch for a typical room, then use the plan/sketch to estimate the quantities of materials needed to install an exposed grid ceiling system in the room.

**Module 45204-09 has no Performance Profile Sheet;
no performance testing is required for this module.**

Craft: Drywall

Module Number: 45205-09

Module Title: Exterior Cladding

Contren® Learning Series

TRAINEE NAME: _____

TRAINEE SOCIAL SECURITY NUMBER: _____

CLASS: _____

TRAINING PROGRAM SPONSOR: _____

INSTRUCTOR: _____

Rating Levels: (1) Passed: performed task (2) Failed: did not perform task
Also, list the date the testing for each task was completed.

Recognition: When testing for the NCCER Standardized Craft Training Program, be sure to record Performance testing results on Craft Training Report Form 200, and submit the results to Training Program Sponsor.

Objective	TASK	RATING
2	1. Install starter track and stick foam to appropriate substrate.	
2	2. Rasp foam; mix base coat; and install mesh and base coat on the foam panel completed in Task 1.	
2	3. Prime and install finish on panel completed in Task 2.	

**Module 45206-09 has no Performance Profile Sheet;
no performance testing is required for this module.**
