

NOTE ON PERFORMANCE TESTING

Performance Profile Sheet(s) are included in a format that can be easily photocopied for each trainee. This examination is designed to measure competency in the tasks taught in each module.

Please note the number of tasks to be tested while teaching each module. Each trainee should be tested on all the tasks listed on the Performance Profile Sheet(s). Before performance testing, the instructor should brief the trainees on:

- Test objectives and criteria
- Safety precautions
- Procedures for each task to be tested

The instructor administering the performance testing should also do the following:

- Ensure that all of the needed equipment is available and operating properly.
- Set up the testing stations.
- Organize and administer the test in a way that allows for optimal performance.
- Complete the Performance Profile Sheet(s) for each trainee by assigning a pass/fail score for each listed task. Also, include the testing date, and start and end times for each task in the rating boxes.
- Monitor adherence to all safety regulations and precautions.
- Provide adequate supervision to prevent injuries.
- Take immediate and effective action to remedy any emergency.

Performance Testing

If Performance Testing is done as part of the NCCER Standardized Craft Training Program, the following conditions must be met:

1. The Craft Instructor must hold valid NCCER instructor certification.
2. The training must be delivered through an Accredited Training Sponsor recognized by NCCER.
3. The specific performance testing must be completed successfully.
4. The results of the testing must be recorded on the Registration of Training Modules Form. This form must be provided to the local Accredited Training Sponsor to be forwarded to the NCCER Registry.

**Module Number: 26101-17 has no Performance Profile Sheet;
performance testing is not required for this module.**

Performance Profile Sheet (Page 1 of 1)

NCCER Training

Craft: Maritime Electrical Level One
 Module: 26102-17
 Module Title: Electrical Safety

Trainee Name: _____

Training Program Sponsor: _____

Instructor: _____

Rating Levels: (1) Passed: performed task (2) Failed: did not perform task
 Also, list the date the testing for each task was completed.

Recognition: When testing for the NCCER Training Program, be sure to record Performance testing results on the Registration of Training Modules form, and submit the results to the Training Program Sponsor.

OBJECTIVE	TASK	RATING	DATE	START TIME	END TIME
	Properly select and use PPE.				
4	Describe the safety requirements for an instructor-supplied task, such as replacing the lights in your classroom.				
	<ul style="list-style-type: none"> Discuss the work to be performed and the hazards involved. 				
	<ul style="list-style-type: none"> If a ladder is required, perform a visual inspection on the ladder and set it up properly. 				
	<ul style="list-style-type: none"> Ensure that the local emergency telephone numbers are either posted or known by you and your partner(s). 				
	<ul style="list-style-type: none"> Plan an escape route from the location in the event of an accident. 				

**Module Number: 26104-17 has no Performance Profile Sheet;
performance testing is not required for this module.**

**Module Number: 26103-17 has no Performance Profile Sheet;
performance testing is not required for this module.**

NCCER Training

Craft: Maritime Electrical Level One
Module: 26110-17
Module Title: Basic Electrical Construction Drawings

Trainee Name: _____

Training Program Sponsor: _____

Instructor: _____

Rating Levels: (1) Passed: performed task (2) Failed: did not perform task
 Also, list the date the testing for each task was completed.

Recognition: When testing for the NCCER Training Program, be sure to record Performance testing results on the Registration of Training Modules form, and submit the results to the Training Program Sponsor.

OBJECTIVE	TASK	RATING	DATE	START TIME	END TIME
2	Using an architect’s scale, state the actual dimensions of a given drawing component.				
3	Make a materials takeoff of the lighting fixtures specified in the provided drawing. The takeoff requires that all lighting fixtures be counted, and where applicable, the total number of lamps for each fixture type must be calculated. (Fill these in on the provided Lighting Fixture Takeoff worksheet.)				

**This Performance Profile Sheet comes with a drawing, worksheet, and worksheet answer key.*
