

## **NOTE ON PERFORMANCE TESTING**

Performance Profile Sheet(s) are included in a format that can be easily photocopied for each trainee. This examination is designed to measure competency in the tasks taught in each module.

Please note the number of tasks to be tested while teaching each module. Each trainee should be tested on all the tasks listed on the Performance Profile Sheet(s). Before performance testing, the instructor should brief the trainees on:

- Test objectives and criteria
- Safety precautions
- Procedures for each task to be tested

The instructor administering the performance testing should also do the following:

- Ensure that all of the needed equipment is available and operating properly.
- Set up the testing stations.
- Organize and administer the test in a way that allows for optimal performance.
- Complete the Performance Profile Sheet(s) for each trainee by assigning a pass/fail score for each listed task. Include the testing date and start and end times for each task in the rating boxes.
- Monitor adherence to all safety regulations and precautions.
- Provide adequate supervision to prevent injuries.
- Take immediate and effective action to remedy any emergency.

### **Performance Testing** ---

If Performance Testing is done as part of the NCCER Standardized Craft Training Program, the following conditions must be met:

1. The Craft Instructor must hold valid NCCER instructor certification.
2. The training must be delivered through an Accredited Training Sponsor recognized by NCCER.
3. The specific performance testing must be completed successfully.
4. The results of the testing must be recorded and submitted to the local Accredited Training Sponsor for approval through NCCER's Registry system.

**Module One: 19101-18 has no Performance Profile Sheet;  
performance testing is not required for this module.**

**Module Two: 19104-18 has no Performance Profile Sheet;  
performance testing is not required for this module.**

**Module Three: 19105-18 has no Performance Profile Sheet;  
performance testing is not required for this module.**

**Module Four: 19209-18 has no Performance Profile Sheet;  
performance testing is not required for this module.**

**Module Five: 19210-18 has no Performance Profile Sheet;  
performance testing is not required for this module.**

# PERFORMANCE PROFILE SHEET

**Craft: Mechanical Insulating Level One**

**Module Six: 19106-18**

**Module Title: Installing Fiberglass Pipe Insulation**

**NCCER TRAINING**

TRAINEE NAME: \_\_\_\_\_

TRAINING PROGRAM SPONSOR: \_\_\_\_\_

INSTRUCTOR: \_\_\_\_\_

**Rating Levels:** (1) Passed: performed task (2) Failed: did not perform task  
Be sure to list the date the testing for each task was completed.

**Recognition:** When testing for the NCCER Training Program, record performance testing results and submit them to your Training Program Sponsor through the Registry System.

OBJECTIVE	TASK	RATING	DATE	START TIME	END TIME
2	1. Apply fiberglass insulation on pipe.				
2	2. Trim insulation and jacket.				
2	3. Apply fiberglass insulation at hangars and supports.				
2	4. Seal cut or punctured all-service jacketing (ASJ).
