Craft: Pipeline Maintenance Level 2  
Module: CTCC-17  
Module Title: Cold Cutting

Trainee Name:

Training Program Sponsor:

Instructor:

Rating Levels:  
(1) Passed: performed task  
(2) Failed: did not perform task  
Also, list the date the testing for each task was completed.

Recognition: When testing for the NCCER Training Program, be sure to record Performance testing results on the Registration of Training Modules form, and submit the results to the Training Program Sponsor.

## OBJECTIVE
Mount the cutter on the pipeline and cold cut the pipe. Once the cut is complete remove the cutter.

## TASK
Complete the draining if there is any product remaining in the pipe and make additional cuts as necessary to remove the pipe section.

## OBJECTIVE
Roll or lift the pipe out of position, remove the bonding cables, and remove the pipe from the area.

## TASK
File sharp edges of the pipe or cover with a split rubber hose, to prevent lacerations.

## OBJECTIVE
Complete appropriate documentation as required by operator’s procedures.
