

# Concrete Construction

## Interim Credentials

Concrete Construction curriculum provides four interim credentials culminating in a full craft completion: Concrete Placement, Concrete Formwork, Concrete Reinforcement, and Concrete in Highway Systems

### Concrete Placement

Preparing for Placement

Finishing Concrete

Troubleshooting &  
Quality Control

Overlapping Modules\*

### Concrete Formwork

Vertical Formwork

Horizontal Formwork

Overlapping Modules\*

### Concrete Reinforcement

Reinforcing Concrete

Overlapping Modules\*

### Concrete in Highway Systems

Curing &  
Protecting Concrete

Paving

Overlapping Modules\*

Unique Module

\*Overlapping Modules include:

Introduction to Concrete Construction, Concrete Safety,  
Concrete Tools & Equipment, Site Concrete, Properties of Concrete
